## Profile: Amit Bansal

Masters of Computer Applications  
Microsoft Certified Trainer  
Microsoft Certified Technology Specialist  
Microsoft Certified Solution Developer for .NET  
Microsoft Certified Application Developer  
Microsoft Certified System Administrator  
Microsoft Certified Professional IT

Amit Bansal is a SQL Server & Business Intelligence specialist. He is an MVP on SQL Server.

He is an Associate Director at eDominator Systems P Ltd ([www.eDominator.com](http://www.eDominator.com))  
PeoplewareIndia is the training unit of eDominator Systems ([www.peoplewareindia.com](http://www.peoplewareindia.com))

As a Sr. Trainer Consultant from PeoplewareIndia, he offers exclusive training & consultancy on Microsoft SQL Server in areas like development, implementation, administration, high availability, disaster recovery, performance tuning, security and Business Intelligence including Analysis Services, Reporting Services & Integration Services.

Amit is one of the most sought after trainer & consultant on SQL Server & Business Intelligence. He had been recently invited by Microsoft at TechED 2007, Orlando, to proctor 27 sessions on SQL Server 2005 & Business Intelligence. This makes Amit, the first and the only Microsoft Certified Trainer in India to achieve such a feat.

He is closely associated with Microsoft India and conducts frequent 'Train the Trainer' programs for Microsoft Learning. Amit also conducts workshops for SMSG and EPG group in Microsoft where he imparts high level technical skills to customers and partners of Microsoft across Asia Pacific. Amit is a regular speaker at TechNet and MSDN sessions of Microsoft.

Amit has trained more than 3000 IT professionals & conducted more than 100 batches for his clients that include but not limited to Infosys, Wipro, Accenture, Capgemini, IBM, HP, Bosch, Siemens, LexMark, Hexaware, US Technology and Microsoft.

### Fact File

Name	:	Amit Bansal
Designation	:	Associate Director (eDominator Systems Ltd – <a href="http://www.edominator.com">www.edominator.com</a> )
	:	Trainer Consultant (PeoplewareIndia – <a href="http://www.peoplewareindia.com">www.peoplewareindia.com</a> )
Experience	:	8+
Specialization	:	Anything & Everything in SQL Server (any version) ☺
Job Profile	:	Technology & Platform Evangelism
Community	:	<a href="http://groups.msn.com/PeoplewareIndia">http://groups.msn.com/PeoplewareIndia</a>
Amit on web	:	<a href="http://www.amitbansal.net">http://www.amitbansal.net</a>

Amit has exceptional achievements, rare privileges, brilliant success stories, outstanding customer satisfaction & unmatched product expertise.

To know more on all of the above, read on.

*“Those that know, do. Those that understand, teach.”*

## Achievements

(Success Stories – Part 1)

*“The starting point of all achievement is desire”*

Amit is the first and the only Microsoft Certified Trainer in India to be invited by Microsoft at TechEd 2007, USA, to proctor HOL (Hands-on-labs) on SQL Server 2005 & Business Intelligence.

Amit is a Microsoft Certified Trainer for the last 6 years, one of the first in India.

He has the rare privilege to be on the elite panel of Microsoft for their “Train the Trainer (T3)” programs across India, working closely with Microsoft Learning, India.

He has conducted numerous TechNet and MSDN sessions along with Microsoft India. Latest being on SQL Server 2005 conducted in 6 cities including Mumbai, Delhi, Hyderabad, Bangalore, Chennai & Pune. He works closely with the SQL Server Product Team in India.

He has a rare distinction of Early Achiever in Microsoft Certified Solution Developer for .NET (MCSD.NET). He was certified as MCSD.NET in 2003.

He is also an MCAD Charter Member.

Amit has trained more than 3000 IT professionals from companies like Infosys, Wipro, Satyam, Accenture, IBM, Capgemini, Bosh, HP, Siemens, US Technology, Hexaware and many other CMM Level 5 giants in India.

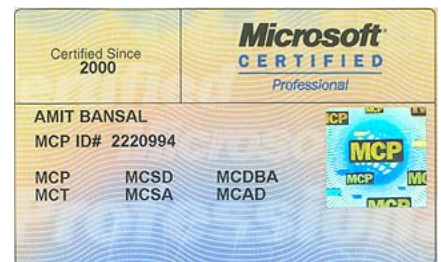

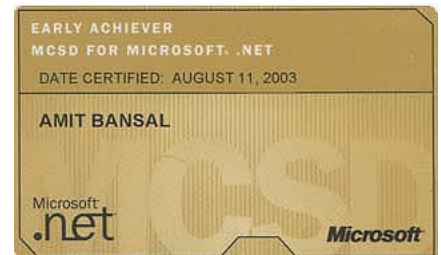

He has authored a number of technical articles for various web sites & magazines.

He is the founder & manager of various community forums across India including

<http://groups.msn.com/PeoplewareIndia>

<http://grousp.msn.com/TrainTheTrainer>

*“The only place where success comes before work is in the dictionary.”*

## Expertise

*“No great genius has ever existed without some touch of madness.”*

SQL Server. SQL Server. SQL Server. SQL Server. SQL Server. SQL Server.  
6.0 6.5 7.0 2000 2005 2008

Amit has been working with SQL Server since version 6.0

He has exceptional expertise on relational database engine of SQL Server. He possesses strong knowledge on Relational Theory & Business Intelligence.

His expertise includes DB implementation, DB programming, Administration, Performance Tuning, Disaster Recovery, High Availability, Manageability, Scalability, Clustering, Replication, Notification Services, Service Broker, Business Intelligence, Data warehousing, Data Mining, Analysis Services, Reporting Services & Integration Services amongst many other SQL Server technologies.

He knows the best practices of implementing & maintaining a database solution with SQL Server. He knows how to tune a query. He understands the tradeoffs between normalization, de-normalization and generalization. He knows how to administer & automate SQL Server. He knows the best availability solution to implement in a given scenario. He knows how to troubleshoot failed messages. He knows how to recover from disaster. He knows best practices in DB Mirroring. He knows how to scale out using clustering services. He knows when to use DB Snapshots and when not. He knows how to secure SQL Server. He knows how to design & implement OLAP solutions. He knows how to design & implement Reporting Services Architecture. He knows how to design & implement Integration Services. He knows the tips & tricks of migration. He knows how to model business requirements to create a database solution. He knows how to design a Business Intelligence Solution. He knows how to design & implement an ETL solution architecture. He knows how to ...

### Product Expertise

SQL Server 2005  
SQL Server 2008

#### Technologies

DB Implementation  
DB programming  
Administration  
Performance Tuning  
Disaster Recovery  
High Availability  
Manageability  
Scalability  
Clustering  
Replication  
Notification Services  
Service Broker  
Business Intelligence  
Data warehousing  
Data Mining  
Analysis Services  
Reporting Services  
Integration Services  
And of course, “Security” ☺

“Most trainers are jack-of-all-trades, seldom good at any. Amit concentrates all his efforts on one definite chief aim, SQL Server”

Note: Due to Amit’s continuous learning process & project assignments, he possesses excellent product expertise on Windows Server System, BizTalk Server, Microsoft.NET, MOSS, Office 2007 system, Windows Vista & related technologies.

## Clientele

*“The result of my hard work is success. The result of success is my esteemed clientele.”*

*- Amit Bansal*

			<p><i>“Never say no when a client asks for something, even if it is the moon. You can always try, and anyhow there is plenty of time afterwards to explain that it was not possible.” ☺</i></p> <p><i>Jokes apart...</i></p> <p><i>“I have the discipline to work for my clients, for their people, for their products &amp; services, for their networks because I believe in them and want to see them succeed.”</i></p> <p><i>-Amit Bansal</i></p>

## Major Assignments

(Success Stories – Part 2)

*“We become just by performing just actions, temperate by performing temperate actions, brave by performing brave actions.”*

Proctoring 27 sessions on SQL Server & Business Intelligence was never easy at Microsoft's largest technical conference with 14,000 international delegates in the United States of America. Microsoft calls Amit all the way from India. Amit makes his mark.

It was indeed a challenge to conduct the TechNet event in India for Microsoft in 6 cities on SQL Server 2005. More than 100 IT professionals from different companies and cities participated. It was a great success.

The SQL Server Product team in India had mega plans to conduct advance sessions on SQL Server 2005 for their customers & partners all over India. These included some of the largest companies in India and were conducted in 10 cities covering the whole of India. Microsoft had the faith and Amit had the potential. The feedback was just exemplary.

The production support team at McAfee has an average experience of 10 years. They support everything from replication to clustering to DB maintenance to troubleshooting for McAfee's infrastructure all over the world. Upgrading them to SQL Server 2005 was a real experience.

Tuning & optimizing queries for RM ESI was quite a challenge.

Business Intelligence training & consultancy for Siemens Information Systems Ltd

Upgrading HP guys at India Delivery Center on core RDBMS engine of SQL Server 2005 was a tough task well done.

Last but not the least, “Train the Trainer” program for Microsoft Learning is always challenging. Bravo teaching bravos. 😊

**Microsoft TechNet**

Microsoft  
**SQL Server 2005**

**Microsoft Learning**

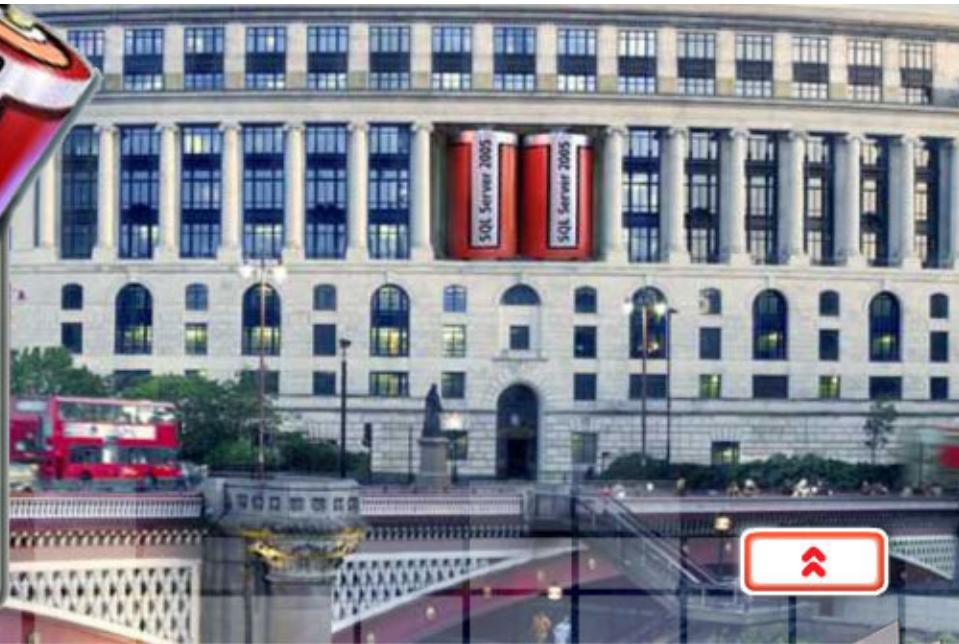

*“Life's challenges are not supposed to paralyze you, they're supposed to help you discover who you are.”*

## Feedbacks

(Participants Speak)

*"It has always been a pleasure reading the feedback forms. Always."*

- Amit Bansal

I have never come across such a good trainer. He is technically very sound and an utter professional.

*Sheethal Sarah Chacko, Accenture Services.*

Overall experience was good. Instructor had good and in depth knowledge of the subject. He tried to cover most of the topics and time was given for discussions as well.

*Amit Kumar Jain, HCL Technologies.*

I am very contented with the presenter and his knowledge. The event was really very well organised by Microsoft and meets up all expectations one would have associated with brand Microsoft. Would definitely be looking forward to more interaction with technology experts like Amit Bansal.

*Shashank Rastogi, Keane India Ltd.*

I really appreciate the presentation on this concerned topic with an enhanced deep value given to technical aspects of SQL 2005 and at most on new features added. Trainer influenced us most during the session as by his technical depth into the subject.

*Raman Jain, Perot Systems.*

The training was good enough to sail through SQL Server 2005 advanced features. Well a two day slot is not sufficient for such a vast technology, but whatever was covered in two days was in a good manner and practical. I appreciate the work done by the trainer Mr. Amit Bansal. Cheers...

*Arihant Jain, Vertex India Ltd,*

Good. The training was good and meets my expectations from the sessions completely.

*Sumit Koul, Xansa India Ltd*

Time limit should be more so that instructor can deliver better. Instructor has very deep knowledge but time limit should be more.

*Prasad Behere, Cybage Software Ltd.*

A well conducted training. Meet all expectations as thought of.

*Vishal Srivastava, Cognizant Technology Solutions India P Ltd.*

It is very nicely covered.

*Firoz Hussain Sheikh, Infosys Technologies Ltd.*

Excellent pre work on assignment and very well coverage of the syllabus.

*Puja Vyas, Persistent Systems P Ltd.*

It provided an insight into new technologies available in MS SQL 2005 compared to 2000. It was a great experience with hands on lab and being trained by a MCT, who was really knowledgeable and well prepared for the session.

*Stephen Pradeep Kotian, Hewlett Packard.*

It was really a good experience, really useful. When I am going back to office some concepts I am able to take from this session.

*Ansar M. K., IBM India P Ltd.*

This was the best training session I ever attended. The lab sessions were really wonderful and gave a confidence to explore and implement new and enhanced features of SQL server 2005. The trainer was interactive, knowledgeable and capable enough to answer the queries being asked.

*Simi Koyithanary, Satyam Computer Services Ltd.*

The training was good, exceeded my expectation. I was able to grasp more knowledge and was able to clear my queries.

*A. Alfred Sukumar, Deloitte Services*

Trainer's communication and presentation skill is good.

*Viji K. Rajesh, Wipro Technologies.*

One of the best training programs, I have ever attended.

*Abhishek Kumar, IBM Global Services.*

Basically I'm into pure development background. I worked on SQL server 2005. It helps me a lot to upgrade my SQL 2005 knowledge. The trainer Amit has very good knowledge on this and it helped me a lot.

*Habeebulla Shaik, McAfee.*

Want you again for SQL Server 2008.

*Abhishek Bagchi, Lexmark*

I am very happy with the knowledge and presentation skills of the trainer. I would be happy to discuss about technical matters with the trainer in the future days. This is the best technical training which I have attended from past 2-3 years.

*Krishna Kishore M.S., Robert Bosche India*

I attended the last four sessions but even then it was easy for me to understand.

*N. Venkatesh, US Technology*

Sessions were very much useful for understanding Basics as well as refreshing new topics.

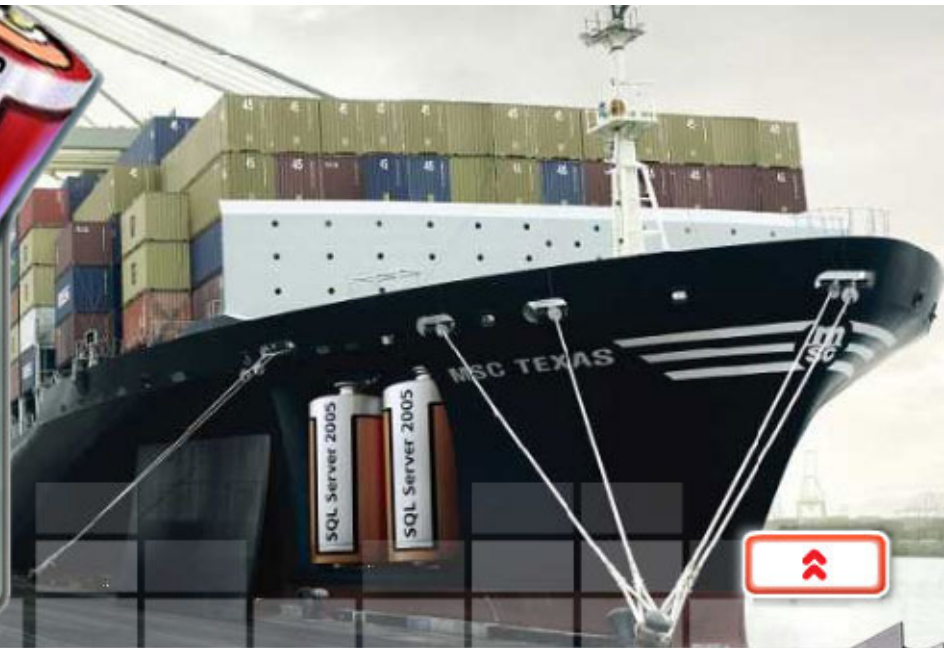

*Jaya Rajesh Kutty, Hexaware Technologies Ltd.*

The training really met the expectations predicted by me.

*Sudha Mayee, TATA Interactive Systems*

## Community Services

*"A community is like a ship; everyone ought to be prepared to take the helm."*

Apart from all his professional achievements, Amit tries to give considerable amount of time to community & social service, people at large. His objective is to equip people with latest technologies and helping them to extract maximum out of it. This in turn helps people to work smarter and be more productive in their daily life, be at home or work.

When it comes to community, Amit has left no stone unturned. He is the manager of community forums that includes:

<http://groups.msn.com/kolkatanet>

<http://groups.msn.com/PeoplewareIndia>

<http://groups.msn.com/TrainTheTrainer>

comprising of more than 2200 members. These community forums are part of International .NET Association (www.ineta.org) and are monitored & promoted by Microsoft. These technical community forums allow Amit to keep in touch with all the attendees of his workshops and seminars and interact with thousands of IT professionals' worldwide. He tries to answer technical questions asked by members on the forums as well as contributes by writing articles. Amit has now initiated an instructional and presentation skills improvement program for trainers along with Microsoft India and will be online shortly at

<http://groups.msn.com/TrainTheTrainer>.

Interacting with students at Engineering colleges is one of the most important activity that Amit does as part of his community service. He does this in form of seminars and workshops.

He also conducts workshops & seminars for official Microsoft.NET user groups in India listed at <http://msdn2.microsoft.com/hi-in/default.aspx>

Some recent activities being for Trivandrum & Kolkata usergroup:

[http://forum.t-mug.org/topic.asp?TOPIC\\_ID=1888](http://forum.t-mug.org/topic.asp?TOPIC_ID=1888)

[http://groups.msn.com/kolkatanet/ugmeeting.msnw?action=get\\_message&mview=0&ID\\_Message=2594&LastModified=4675628446573107742](http://groups.msn.com/kolkatanet/ugmeeting.msnw?action=get_message&mview=0&ID_Message=2594&LastModified=4675628446573107742)

*I always find ways of contributing to the society.*

*Forums
